

YOUR CAREER AT CERICOM

Electronics Technician / Mechatronics Technician (m/f/d)

What we offer you:

Become part of an innovative company where you can contribute and expand your previous professional and personal experience.

Exciting and varied tasks await you in a modern working environment characterised by a high level of personal responsibility, flat hierarchies and an open feedback culture.

We offer you intensive induction, training and coaching. Our company is characterised by a cooperative working atmosphere that leaves plenty of room for your ideas.

Your Profile:

- Completed vocational training as an electronics technician or mechatronics technician
- Preferably a certified state technician (desirable)
- Software skills for creating circuit diagrams, e.g., using EPlan, etc.

- Proficient in German (negotiation level), fluent in English
- Worldwide travel readiness (up to 30% of working time, maximum deployment duration of 2 weeks)
- Independent, careful, and reliable work approach

You will take on the following tasks:

- Final assembly and commissioning of laser systems
- Servicing existing systems
- Basic PLC programming and visualization (desirable)
- Documentation, creation, and maintenance of circuit diagrams and maintenance plans
- Coordinating the procurement of necessary spare parts
- Wiring of production systems (electrical/pneumatic)
- Control cabinet construction & production of custom solutions
